MPCS(MATHS)	
(Bcom)English- I request mam to reduce some assignment work or else provide some additional time for submission of assignment.	
No suggestions	
No	
Keep internals in online and give important questions for sem1	
No	
......	
No All Fine	
There is a need to change the examination pattern ,there should not be any internal exam which is of 15 marks what i feel is as it is the world is passing through pandemic ,it has become a risk for everyone and every where i suggest internal marks and 5 marks assignment,I should be included in the theory paper, there is no benefit for thw students with internals and assignment they just copy write and submit ,each theory paper should be 50 marks only until the situation becomes maskfree	
C++	
ONLINE TEACHING METHOD SHOULD BE IMPROVED.	
Thank you	
Implementing skills classes	
Organic chemistry:many training opportunities are available through out the course	
For practicals subjects - subjects are not understandable

Nothing
We are feeling good in understanding facultay
Online classes are good. But some times facing network issue problem
No
Write in the board to make understand more
Utilize a variety of technology options
Nothing specific
Nothing
No suggestions... everything is fine
BCOM COMPUTERS for web technology, and other programming subjects going through online learning is not a good mode of learning I regret for not getting the chance to learn via.,offline lab classes but the faculty always tried to upgrade us through various modes of learning & understanding the concepts. I felt grateful to be the part of SNVMV with such a good faculty.
Its all going perfect.
No suggestions regarding courses offered and the education system is super good in

our college. But the Fee paying process in our college is the lagy process because for each and every payment of exam fee or clg fee we should go and stand in the line for hours at college as well as bank, We feel that it is a lengthy process through which students are getting little bit Disappointed. So please change the fee paying process. Thank You
-
On line teaching full fills 60% of the students required knowledge physical classes impact will be 100%
No
No
Nothing
Pg.Botany-.Practicals in Horticulture and Plant Breeding, as well as Biodiversity, should be revised because they feature more theoretical than practical practice.
