ECONOMICS - The study of how society uses its limited resources.

1. To impart Training in Principles of Economics and their application.
2. To develop the ability to apply the knowledge they have acquired by study of Economics to become competitive in job market.
3. To provide firm foundation about the working of the economy and develop the relevant skills for the application of the knowledge of Economics in their professional and personal life.
4. To sensitize the students of Economics to a wide spectrum of socio-political problems of the contemporary world.
5. To provide knowledge and skills base, from which they can proceed to further studies in Economics and related areas or multi-disciplinary areas that involve Economics.
6. To provide analytical skills and an ability to utilize these skills in self-employment opportunities offered by Government and self-help groups specifically developed for women empowerment.
7. Students should be able to appreciate level of abstraction for economic empowerment.
8. As students pursuing Economics with Political Science and Public Administration enable them participate in the decision making process by entering into civil services and other elected bodies.

Growing Importance of Economics In The Modern World

“From cradle to grave and beyond, people run after the brute truth of economics”

Economics is a key discipline in Social Sciences and is interlinked with Psychology, Sociology, Anthropology, Geography, History, Political Science, Ethics, Logics and Law. The analytical reasoning of the subject is based on Mathematics and statistics. It is one of the central disciplines underpinning the study of business and management and also related areas including Engineering. Recognizing their interrelationships and increasing number of students are choosing to study the subject Economics either as a main or jointly with other disciplines.

The science of Economics is 200 years old. It made remarkable progress during this period. Earlier it was studied as Political economy. The logistics of studying Political Economy is that a stable political system contributes to sound economics system.

The importance of the subject can be better understood from the following definitions:

Adam Smith the father of Economics has viewed “Economics as an enquiry into the nature and causes of wealth of nations.”

According to **David Ricardo** Economics studies “how the produce of earth is distributed.”

Marshall expanded the scope of Economics as “the study of mankind in the ordinary business of life and examines that part of individual and social action which is connected with material requisites of wellbeing.”

Pigou viewed Economics as “that part of social welfare which can be brought directly or indirectly with the measuring rod of money.”

Robbins defined Economics “as a study of the allocation of scarce resources among competing ends that have alternative uses.”

Right from the simplest domestic economy to the most complex world economy the definitions are apt.

Samuelson added the dimension of growth to Robbins scarcity definition to make relevant to the problems of developing economies.

“Economics is what Economists do.” - **Jacob Viner**

Economists are concerned with the following fundamental questions:

The problem of

- Full employment of resources
- Allocation of resources
- Choice of Techniques
- Distribution of National Product
- Economic efficiency of Welfare maximization
- Economic Growth

The subject matter of Economics is studied as Micro Economics and Macro Economics.

Micro Economics deals with the individual units, a consumer, a firm, an industry and markets. It is also known as price theory and explains price determination of products, and factors under different market conditions, resource allocation among various products, and income distribution in an economy. The theory is static and is based on the principles of maximization of utility and profit. It is based on the assumption of ceteris paribus, which means that other things remain constant, i.e., one variable is varied and other kept constant. The analysis thus is explained as Partial Equilibrium.

Important Theories of Micro Economics are

- Theory of Demand
- Law of Diminishing Marginal Utility and Equi-Marginal Utility
- Law of Variable Proportions
- Theory of Supply
- Product Price and Factor Price Determination

Vision

To Develop the ability to apply the knowledge students have acquired by the study of economics to become competitive in job market.

Mission

To Provide A firm foundation the working of the Economy and develop the relevant skills for the application of the knowledge of Economics in the professional and personal lives of the students

Evaluative Report of the Departments

Name of the Department : ECONOMICS

Year of Establishment 1962

Name of Programmes / Courses offered : U.G – EPP, HEPS, HEPA, HPP

Year-wise 2012-13 to 2015-16. Choice based credit system – 2016-17 to 2017-18.

Faculty profile with name, qualification, designation, specialization, D.Sc./D.Litt./Ph.D./M.Phil. etc,

Name	Qualification	Designation	Specialization	No. of years of experience
Dr.V. Ameetha	M.A., M.Phil., Ph.D., SLET	Asst. Prof. in Economics	Industrial Economics	23 Yrs.
Mrs.P Varalakshmi	M.A., SLET, Diploma in Comp. Sci.	Assoc. Prof. in Economics	Industrial Economics	23 Yrs.
Dr.Anish Fatima	M.A.SE T,B.Ed, Ph.D	Assoc. Prof in Economics		4Yrs.
Mrs.P.Venkata Lakshmi	M.A. B.Ed	Lecturer in economics		1Year

Student – Teacher Ratio (programme wise) : 25 : 1

<u>Year</u>	<u>Group</u>
2018-2023	EPP ,HEPS,HEPA,HPP

Details of Infrastructural facilities

- Library
- Internet facility for staff and students.
- Classrooms with ICT facility.

Details on student enrichment programmes (special lectures / workshops/seminar) with external experts.

- Special lectures are arranged with external experts, and seminars and paper presentations are conducted for B.A. III, III & I Yrs. On regular basis.
- The students are enriched in not only their own subject Economics but with the introduction of skill enhancement courses and courses like gender sensitization which are compulsory the students are made aware of the social evils and ways and means to overcome them. Social values and ethics are also imbibed into them which enriches their overall personality.

Time Table 2023 – 2024

DSC (Discipline Specific Course), SEC (Skill Enhancement Course) & DSE (Discipline Specific Elective) for Students of Economics.(PW) Per week.** GE (Generic Elective) or Inter-Disciplinary Course for Students of Social Sciences other than Economics.

(Prof.B.Sudhakar Reddy)
Chairman Board of Studies

B.A. (ECONOMICS) SYLLABUS
Semester - I
MICRO ECONOMICS - I
Discipline Specific Course - Paper - I

MICRO ECONOMICS

Module-I: CONSUMER BEHAVIOUR:

Ordinal utility Analysis: Properties of Indifference curves, concept of budget line, equilibrium of consumer, price consumption curve, income consumption curve, derivation of demand curve with the help of ordinal utility analysis. Concepts of price, income and substitution effects; separation of price effect: compensating variation and cost difference methods.

Module-II PRODUCTION ANALYSIS

Concepts of Short run and long run production function; properties of iso-product curves, concept of iso-factor price line, analysis of least cost input combination, concepts of expansion path and economic region of production, concept of returns to scale and types of returns to scale. Linear and homogeneous production function, properties of Cobb-Douglas production function.

Module-III: COST AND REVENUE ANALYSIS

Cost concepts: Accounting, real, opportunity, explicit cost. Total cost, total fixed cost, total variable cost, average cost, average fixed cost, average variable cost, marginal cost and the relationship between average and marginal cost, derivation of long run average cost curve. Economies of scale: internal and external.

Revenue concepts: total, average and marginal, relationship between Average revenue & marginal revenue and price elasticity of demand.

Module-IV: MARKET STRUCTURE: IMPERFECT COMPETITION

Monopoly: Equilibrium of a monopolist with price discrimination, degrees of price discrimination, welfare loss under monopoly. Monopolistic competition: characteristics, concepts of product differentiation and selling cost, analysis of resource wastage under monopolistic competition. Oligopoly: characteristics of oligopoly, reasons for price rigidity in non-collusive oligopoly. Duopoly: Augustin Cournot's modern version of duopoly.

Module-V: ANALYSIS OF BUSINESS FIRM, PROFIT AND PRICING STRATEGIES

Characteristics of a business firm, objectives of business firm: profit maximization, sales revenue maximization, market share maximization, growth maximization. Profit concepts: Accounting and economic; break-even point and profit-volume analysis

Pricing strategies: Cost plus pricing, marginal cost pricing, rate of return pricing, price skimming, penetration pricing, loss-leader pricing, mark-up pricing and administered prices.

B.A. (ECONOMICS) SYLLABUS
Semester - II
MACRO ECONOMICS
Discipline Specific Elective - Paper - II

Module– I: Introduction

Macro Economics – Concept of Circular Flow of Incomes –National Income Analysis: Concepts and Components – Methods of Measurement –Difficulties and Limitations in the Estimation of National Income.

Module– II: Theories of Income and Employment

Keynesian Theory of Income and Employment: Effective Demand – Consumption Function:Average Propensity to Consume (APC) and Marginal Propensity to Consume (MPC) – Factors Determining Consumption Function – Savings Function: Average Propensity to Save and Marginal Propensity to Save – Concepts of Multiplier and Accelerator

Module– III: Investment & Theories of Interest Rate

Capital and Investment: Types of Investment, Determinants of Level of Investment – Marginal Efficiency of Capital and Marginal Efficiency of Investment, Neo-Classical and Keynesian Theories of Interest .

Module – IV: Supply of Money & Demand for Money

Functions and Classification of Money – Money Supply – Measures of Money Supply with reference to India: M1, M2, M3 and M4 – Classical Theories of Money: Fisher’s and Cambridge Versions of Quantity Theory of Money – Keynes’ Theory of Money and Prices.

Module– V: Inflation & Trade Cycles

Inflation: Concept, Types, Causes and Measurement – Effects of Inflation – Measures to Control Inflation – Concepts of Phillips Curve, Deflation and Stagflation – Trade Cycles: Concept, Causes and Phases of trade cycle.

B.A. (ECONOMICS) SYLLABUS
Semester - III
DSE-SEMESTER – III: STATISTICS FOR ECONOMICS

Module– I: Introduction to Statistics

Meaning and Basic Concepts of Statistics – Population and Sample, Frequency Distribution, Cumulative Frequency – Graphic and Diagrammatic Representation of Data – Types of Data: Primary and Secondary Data – Methods of Collecting Data: Census and Sampling Methods (Random, Non-random Sampling Methods)

Module– II: Measures of Central Tendency and Dispersion

Measures of Central Tendency: Mean, Median, Mode, Geometric Mean and Harmonic Mean – Properties of Good Average – Comparison of Different Averages – Measures of Dispersion – Absolute and Relative Measures of Dispersion: Range, Quartile Deviation, Mean Deviation, Standard Deviation, Coefficient of Variation and Variance

Module– III: Correlation and Regression

Correlation: Meaning and Types – Karl Pearson's Correlation Co-efficient – Spearman's Rank Correlation – Regression: Meaning and Uses of Regression.

Module– IV: Index Numbers

Meaning and Uses – Aspects and Difficulties in the Construction of Index Numbers - Types of Index Numbers – Methods of Index Numbers - Laspeyres, Paasche and Fisher.

Module– V: Analysis of Time Series

Meaning and Uses – Components of Time Series Analysis: Secular, Seasonal, Cyclical and Irregular Variations – Methods of Measurement of Secular Trends: Graphic, Semi- Averages, Moving Averages

Semester - III
BASICS OF COMPUTER APPLICATIONS IN ECONOMICS
Skill Enhancement Course-I - Paper – I

Module-I: Introduction of Computers

Definition - Evolution of Computer - Computer Generations - Micro Computers - Structure of Computer - Uses of Computer - Basic Components of Computer - Central processing Unit (CPU) Operating System – Window Operating System - Salient Features - Merits of Windows Operating System - Accessories - System tools - Scan Disk - Word Pad - Note Pad - Paint - Imagination - Windows Explorer - Ms- Word: Creating, Opening and saving files - editing and formatting text

-

spell and grammar check - auto correct - creation of tables and volumes.

Module – II Data Analysis using SPSS: Basics of Data Analysis – Data Entry in SPSS – Computing with SPSS – Preparation of Graphs with SPSS – Distribution Functions and Density Functions – Statistical Package handling and command description for SPSS – Reports, Descriptive – Statistics, Compare Means, Time Series Analysis, Correlation and Regression Models.

B.A. (ECONOMICS) SYLLABUS
Semester - III
RURAL DEVELOPMENT
Skill Enhancement Course-I - Paper – II

Module-I Aspects of Rural Development

Concept of Rural Development, Rural Development vs. Agricultural Development, Role of NGOs in Rural Development, Rural Non farm sector and Rural Development, Decentralized planning and Participatory development, role Panchayats in decentralized in rural development.

Module-II Rural Credit and Self Help Groups

Role of National Bank for Agriculture and Rural Development (NABARD) for rural development, Constraints of micro-enterprises in rural areas, credit need for rural non farm sector, the concept of micro credit, Micro credit role of Grameen Bank, SHG's in India Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) and rural development.

B.A. (ECONOMICS) SYLLABUS
Semester - IV
INDIAN ECONOMY
Discipline Specific Elective - Paper –IV

Module I: Structure of the Indian economy:

Indian Economy at the time of Independence. Changes in the Composition of National Income and Employment. Natural Resource base: Land, Water, Forest, Mineral and Metal Resources. Population: Size, Growth and Composition and their implications for Indian economy.

Module II: Indian Agriculture:

Importance and Role of Agriculture. Trends in Agricultural Production and Productivity. Land Reforms. Green Revolution. Agricultural Finance. Agricultural Marketing. Agricultural Price Policy. Food Security in India.

Module III: Indian Industry and Services:

Role and Importance of Industrialization. Trends in Industrial Production and Services. Industrial Policy Resolutions: 1956, 1991 The Role of Public and Private Sectors. Formal and Informal Sectors in Industry and Services

Module IV: NIIT AAYOG

Demise of planning commission. Genesis of NITI Aayog: structure and composition of NIIT Aayog, Functions and objectives of NIIT Aayog, Differences between NIIT Aayog and planning commission, Economic prism-cooperative federalism platform for interface between Centre and State. NIIT Aayog role in strategic planning and innovation and knowledge hub. Challenges ahead.

Module-VService Sector, Economic Reforms:

Concept, Components, Trends and Role of Service Sector,-Infrastructural Development: Transport, Banking, Insurance, and Information Technology. Economic Reforms: Linearization, Privatization, and Globalization- A critical evaluation.

B.A. (ECONOMICS) SYLLABUS
Semester - IV
SEC-3 Data Analysis

Module -I: Collection and representation of data

Collection of data (some methodological issues), Census, Sample survey Representation of data the basic of data Management in stata / R / Eviews / SPSS / MS Excel

Module-II: Indian official statistics (Basic concepts)

Central statistical office (CSO) – National Accounts statics (NAS) Industrial statics (ASI,IIP), National sample survey Office (NSSO) - Household Consumer Expenditure Survey Rounds, Employment and Unemployment Survey Rounds. Census of India – population Census 2011. Reserve Bank of India (RBI) – Handbook of statistics on Indian Economy Selected Parts)

Suggested Readings;

1. Goon A.M, Gupta, M K, and Dasgupta, B. *Fundamentals of Statistics (volume One)*, The World Press private Ltd
2. GOI, *Note sample Design and Estimation procedure of NSS 68th Round*, national Sample Press private Ltd
3. GOI. *SRS statistical Report 2016* office of the Registrar General & Census commissioner of India.

Prof. B.Sudhakar Reddy
Chairman Board of Studies

B.A. (ECONOMICS) SYLLABUS
Semester - IV
SEC-4 ENTREPRENEURSHIP AND DEVELOPMENT

Module-I Basic Issues of Entrepreneurship and Economic Development

Basic features of Entrepreneurship, Entrepreneurship and its linkages with economic development, Growth of entrepreneurship in India- Role of entrepreneurship in Economic Development and problems of rural entrepreneurship in India.

Module-II Financial Resources for new ventures of an entrepreneur:

Source of finance, capital structure, Institutional support to enterprises- National Small Industries Board- State Small Industries Development Corporation- District Industrial estates- Indian Experience, Stages of growth, types of growth strategies of expansion, Diversification, joint venture, merger and subcontracting.

B.A. (ECONOMICS) SYLLABUS
Semester - V
TELANGANA ECONOMY
Generic Elective- Paper - I

Module- I: Telangana Economy

Economic Features of Telangana, Demographic Features of Telangana- Occupational Distribution of population in Telangana- Sectoral Distribution of population.

Module- II: Gross State Domestic Product, Poverty and Unemployment

Growth and Trends in Gross State Domestic Product and Per capita income in Telangana- Sectoral Contribution to Gross State Domestic Product. Poverty and unemployment in Telangana: Trends, Causes & Concentration of Economic Power.

Module- III: Agriculture Sector

Growth of Agriculture in Telangana Economy- Trends in Agricultural Production and Productivity. Agrarian Structure and Land Reforms, Irrigation sources Trends- Mission Kakatiya, Agricultural Credit and Rural Indebtedness.

Module- IV: Industrial Sector and Service Sector

Structure of Telangana Industry- Its Growth and Pattern Industrial Policy of Telangana-TS iPASS Special Economic Zones. Importance of Service Sector in Telangana- Growth and Pattern of Development of Service Sector in Telangana.

Basic Reading List:

1. Rao S Kishan and Rahul A Shastry (2009): Andhra Pradesh Economy – Dynamics of Transformation with a focus on Regional Disparities, National Academy of Development,
2. Hanumantha Rao and S.Mahender Dev (2003); Andhra Pradesh Development – Economic Reform and Challenges Ahead, Centre for Economic and Social Studies, Hyderabad.
3. Kankalatha Mukund (1990); “Andhra Pradesh Economy in Transition; Centre for Economic and Social Studies, Hyderabad and Book Links Corporation, Hyderabad.
4. Mahendra Dev, S.C.Ravi and M.Venkatanarayana (2009); Human Development in Andhra Pradesh: Experiences, Issues and Challenges; Centre for Economic and Social Studies (CESS), Hyderabad.

B.A. (ECONOMICS) SYLLABUS
Semester - V
DSE- AGRICULTURAL ECONOMICS-V-A

Module-I

Nature and scope of agricultural economics, Factors affecting agricultural development, technological, institutional and general. Interdependency between agriculture and industry.

Module-II

Concept of production function: input and product relationship in farm production.

Module-III

Growth and productivity trends in Indian agriculture. Agrarian reforms and their role in economic development.

Module-IV

Systems of farming, farm size and productivity relationship in Indian Agriculture. New agriculture strategy and Green revolution and its impact.

Module-V

Emerging trends in production, processing, marketing and exports, Policy controls and regulations relating to industrial sector with specific reference to agro-industries in agri-business enterprises.

B.A. (ECONOMICS) SYLLABUS
Semester - V
PUBLIC ECONOMICS
Discipline Specific Elective- Paper – V-B

Module - I: Introduction

Meaning and importance of Public finance -Evolution of public finance. Multiple theories of public household-Public and Private goods-Markets mechanism in public and private goods.State as an agent of planning and development

Module- II: Public Expenditure

Theories of public expenditure- Wagner' s law of increasing state activities – PeacockWisemans hypothesis- Principle of Maximum Social advantage –Growth and pattern of public expenditure, Effects of public expenditure-Cost benefit analysis.

Module- III: Taxation & Public Debt

Approaches to taxation- Benefit approach, Ability to pay approach and Neutrality approach- Elasticity and buoyancy of taxation-incidence and shifting of taxation-Types and classification of taxes and VAT, Approaches to public debt.

Module- IV: Fiscal Policy & Federal Finance

Definition of fiscal policy and its objectives; Fiscal Policies for redistribution of income and wealth and stabilization – fiscal policies in a developing country, federal financial structure and its main features – Direct taxes-Income tax-Corporate tax. Indirect tax structure- – GST

Module- V: Budget

Budget – Classification of budgets –Economic, Functional, organizational, classification of budgets- performance programming and zero based budgets- surplus, balanced and deficit budgets- Concepts of budget deficit and their implications – State and Central budgets.
Fiscal
crisis and Fiscal sector reforms in India;.

ECONOMICS OF ENVIRONMENT
Discipline Specific Elective (DSE)
Paper –V(b)

Module- I: Theory and Concept of Environmental Economics

Nature and Significance of Environmental Economics –definition and scope of environmental economics –Market Failure& Externality– Theories of Environmental Economics.

Module- II: Environment and Economics

Environment and Economics- Inter linkage – Environment as a public good – Environment vs. Economic growth - Population and Environment linkage –Environmental use as an allocate problem —Valuation of Environmental damages: land, water, air and forest.

Module-III: Environmental Problems

Economic development and environmental problems –Air, Water and Soil Pollution, Natural Resource Depletion, Deforestation, Industrial and Agricultural Pollution, Urbanization, Vehicular Pollution. Global warming and green house effect - Environmental degradation.

Module -IV: Environmental Pollution Control

Prevention, control and abatement of pollution –Choice of policy instruments in developing countries – Environmental Education- Environmental law – Sustainable development –indicators of sustainable development – Environmental planning – Environmental accounting.

Module-V: Policy measures

Basic approach –Design of environmental policy –Indian environment policies and performance –Functions of Ministry of Environment and Forest and Pollution Control Boards.

INTERNATIONAL ECONOMICS**Discipline Specific Elective - Paper –VI -A****Module - I: Theories of International Trade:**

Theories of absolute advantage, comparative advantage and opportunity costs; Theorem of factor price equalization; - Heckscher - Ohlin theory of trade, Leontief Paradox.

Module - II: Trade and Growth

Gains from Trade.-Trade as an Engine of Economic Growth. Concepts of Terms of Trade- Factors affecting Terms of Trade- Singer-Prebisch secular deterioration of Terms of Trade.

Module- III: Tariff and Non-Tariff Barriers to Trade

The basic analysis of Tariffs, Quotas, Protection and Imperfect Competition, Optimum tariff. Customs unions, trade barriers, Arguments for and against a Tariff.

Module- IV: Balance of Payments

Concepts and Components of BOP, Equilibrium and disequilibria in Balance of payments, Types of Disequilibria. Remedial measures to control disequilibrium. Causes of Devaluation. Direction and Composition of Foreign trade, Export and Import Policies of India.

Module – V: Internal Factor movements

International Movement of labor, international lending and world debt crisis, Foreign Direct Investment.

Teaching methods adopted to improve students' learning.

- Chalk and board method is followed as it is very effective for better learning of the subject.
- Extension lectures are arranged by the department. External faculty is invited for these lectures.
- Field trips are organized by the department for better exposure
- Regular tests, assignments, projects are presented by the students from time to time with the introduction of choice board credit system from the academic year 2016-17 students have the opportunity of learning diversified subjects in both undergraduate post graduate levels.

Participation in Institutional Social Responsibility (ISR) and Extension activities

The student of social science are very active and participate in many co-curricular and extra – curricular activities. Many of our students participate in NCC and NSS activities. The Haritha Haram Programme which is a tree plantation programme carried out by the Govt. of Telangana is taken up with the great fervor by the students. Voter ID Cards enrolment was taken up by the Social Science Department and the Department of Economics participated with great enthusiasm in this event.

Programme Outcomes

PO1: The students acquire knowledge in the field of Social, Political, Economics, Historical, Geographical, Ideological and Philosophical tradition and thinking which make them sensitive and sensible enough. Students should be able to connect with local to global issues and debate and infer.

PO2: Principle of Reflection – Students will be able to gain knowledge ask questions develop skills and form conclusions through reflective thinking.

PO3: Program makes students a responsible citizen. Understand the rights and duties provided in the constitution and Universal Human Rights. Develop knowledge about social and economic growth.

PO4: The program enables the students to acquire the knowledge with the human values framing the base to deal with various problem in life with courage and humanity. Student should integrate the acquired knowledge into their day to day life and apply to situations.

PO5: The students will be ignited enough to think and act over for the solution of various issues prevalent in the Society to make this world sustainable.

PO6: Interpret, compare, and contrast ideas in the social sciences. Demonstrate knowledge of the methods, techniques, concepts, and vocabularies of the social sciences. Demonstrate knowledge of historical and contemporary issues in the social sciences.

PO7: Principle of solidarity and Kinship- Enable students to integrate varying perspectives that link local and global realities.

PO8: The program also empowers the graduates to appear for various competitive examinations.

Course Outcomes

SEMESTER – I: I.DSC 101: Micro Economics

CO1: Students will learn about consumer behavior and how the consumer tries for maximum satisfaction.

CO2: Students will discover various methods of production analysis and how to maximize profit with minimum cost.

CO3: Students will learn the nature of different types of cost and revenue analysis.

CO4: Students will get the information about the market and price determination under imperfect competition market.

CO5: Students will learn profit maximization strategies of business firms.

SEMESTER – II: 1.DSC 102: Macro Economics

CO1: It provides knowledge regarding the formulation of macroeconomic policies to increase National Income.

CO2: Students can understand the various theories of income and employment.

CO3: Students will understand the relationship between Investment and rate of interest.

CO4: Students will analyze the factors that determine the supply and demand for money.

SEMESTER – III: DSC 103: Statistics for Economics

CO1: Students will know to use statistics as a tool to prepare economic policies.

CO2: Students will know the different methods of calculating averages and measures of dispersion.

CO3: Students will understand the functional and mathematical relationship between two variables after studying correlation and regression.

CO4: Students will learn the knowledge of base period and current period price, in index numbers.

CO5: Understanding Analysis of Time Series, Students will understand the arrangement of values of a variable over successive time periods.

SEMESTER – IV: DSC 104: Indian Economy

CO1: Students will observe structural changes and problems of Indian Economy.

CO2: Students will understand the role of Agriculture sector in Indian Economy.

CO3: Students can identify the trends of Industrial Production and services in India.

CO4: Students acquire knowledge of NITI Aayog.

CO5: Students will understand the role service sector in development of Indian Economy.

SEMESTER – V: DSC 105: Public Economics

CO1: Students will be able to learn the scope and importance of Public Finance.

CO2: Students will discover the theories of public expenditure.

CO3: Students will understand about different types of taxes and redemption methods of Public Debt

CO4: Students will evaluate how Fiscal policy and Federal finance, influences on the Economic stability.

CO5: Students will know how to prepare the Budget.

SEMESTER – VI: DSC 106: International Economics

CO1: Students will compare classical and modern theories of international trade.

CO2: Students will know that international trade is the engine of Economic growth.

CO3: Students will analyze tariffs and non-tariff barriers of international trade.

CO4: Students gain the knowledge of BOP, BOT and its components.

CO5: Students will understand the International factors movement.

RESULT ANALYSIS

SWOC Analysis

Strengths

1. Driven by the mission to impart profound knowledge of the subject and major aspects of Indian economy and global economic challenges to enable them to analyze critically and independently.
2. Wide range of extension, co-curricular and extra-curricular activities.
3. Separate departmental Library.
4. Department of Economics has qualified and well experienced teaching staff.
5. Maintain high standards of academic performance to facilitate students learning by providing presentations, notes, question banks and required study material by all teachers.
6. Faculty supports the holistic development of the students in all spheres.
7. Support of Retired Faculty is also made available for the smooth conduct of departmental activities.
8. Enabling departmental culture for students learning.
9. Harmonious relationship among the teachers, staff, students and parents. Regular PTMs are arranged by the college
10. Student's feedback on college infrastructure and faculty analyzed and used for further improvement,
11. Teaching aids for ICT enabled classrooms for enhancing the quality of deliverance.

Weaknesses

1. Less student strength.
2. The students are belongs to rural area and financially backward so they have to face many difficulties.
3. Need to encourage more participation of the students in the co-curricular.
4. Need to steer students towards research and entrepreneurship,

Opportunities

1. Starting of short term course.- MS office, add on courses
2. Competitive exam guidance

3. The students have many opportunities to work for public and private sector.
4. To organize group discussion on issues social local level.

Challenges

1. Keeping pace with the rapid changes in higher education/ online education.
2. Student of the department having deprived backward region.
3. Poor communication skill

FUTURE PLAN

1. To provide guidance to the students in organising seminars, projects and surveys.
2. Counseling to the students for personality development.
3. To begin coaching for various competitive examinations.

Post-Election Survey at Munugode Constituency on 19th November, 2022.

Post-Election Survey Report of Munugode Constituency

Department of Political Science has conducted a post-election survey at Munugode Constituency on 19th November, 2022. All the staff members from the Department of Political Science along with 70 students from B.A I,II& III have participated in this survey. We have chosen Choutuppal town for the survey as it is near to Hyderabad.

Students have collected the primary data by visiting each house of the town. Each student interviewed about 4-5 voters based on a thoroughly prepared questionnaire. A total of 400 voters were interviewed. The questionnaire contained several questions which enabled us to understand the voter's political awareness and their general knowledge. The surveyors (students) reported that most of the women, to whom they have contacted, were literate, but with no political knowledge. Some of them even asked the money to answer the questionnaire. All the four hundred samples were later categorized into different groups based on the age, gender and literacy. The data based on the survey stated that 65% voters were youngsters (less than 35 years) and 34% voters were middle aged and elders. According to the collected data 52% were male and 44% were female voters. Out of them 60% were literates.

According to survey result 58% of voted for TRS, 40% voted for BJP and 2% voted others. 66% of voters said that this by-elections is going reflect the mood of the voters for the forthcoming State Elections of Telangana and also the following General Elections.

By observing the views of the voters 80% of the population have said that distribution of the money and liquor by TRS was the main reason behind the victory of TRS, 5% of the population said it is the manifesto of the party which led to the victory and 2% of the population have given the vote to TRS by seeing the candidate.

70% of the voters believed that TRS has taken the support of Communist Party, only because of fear of defeat and 25% have given other reasons behind the support of Communist Party to TRS. Almost, 10 MLAs from TRS party have participated in the campaigning in Munugode Constituency only because of the fear of the defeat in the by-elections. The major reason behind the defeat of BJP

in the by-elections was less money distribution among the voters compared to TRS. This has affected the mind-set of the local people. Another important finding is that most of the voters are happy with the welfare schemes including monthly pensions, Dalit bandu and farmers are impressed by 24 hours free electricity.

Most of the voters have accepted the money because it is important for livelihood and they know that after election, no party or representative will turn back for their town development.

65% of voters have said that Komat Reddy Rajgopal Reddy has chance to win the forthcoming election because of the fame among the youth in the Constituency.

Congress lost its deposit because of lack of campaigning in Munugode Constituency. Also, 50% of voters believed that presence of Congress led to the division of votes and loss of BJP.

After the victory of TRS, voters are expecting much more development in Choutuppal. For example, development of roads, irrigation facilities, construction of more schools and colleges, more employment opportunities should be provided in Choutuppal town.

Final analysis draws us to the conclusion that people at the Choutuppal are influenced by policies of the ruling party. However, distribution of money and liquor played a major role in the electoral behavior.

On “Samvidhan Divas” (26th November, 2022) students have taken an oath and a debate was conducted on the topic “Constitution Day”.

On 22nd August, 2023 one of the Voters gave her opinion on The Ruling Party (BRS) of Nirmalnagar Gram Panchayat of Jagdevpur Mandal in Siddipet District.

Department of Political Science enrolled the students for *Election photo identity card*.

Department of Social Sciences conducted 46th Indian Social Science Congress. A One- Day Conference on 7th January 2023 on the Theme of 46th ISSC- “75 Years of Swaraj in India”.

On the occasion of Open Forum, Department has organized an interactive session with Smt Sathyavathi Rathod, Honourable Minister for Tribal, Women & Child Welfare.
