“Politics is the gentle art of getting votes from the poor and campaign funds from the rich by promising to protect each from the other.”

- Oscar Ameringer

Introduction:

Department of Political Science is one of the oldest Departments in the institution, existing since the inception of the college. As part of the Social Sciences, Political Science has been one of the popular subjects chosen by the students for a very long time. Since past decade due to the popularity of STEM subjects there has been a decline in the demand for Social Sciences. But nevertheless, it is due to those few aspirants of Civil Services or those who are passionate about the subject or few others fearing the STEM subjects do choose Political Science for their study.

Political Science seeks to describe and understand political phenomena, and to explore their ethical and normative dimensions. Course provide a broad introduction to the range of topics covered in Political Science, from Authoritarian to Democratic Politics, from Local Governance to International Relations, from Formal Rules and Institutions to the Psychology and Behavior of individuals who participate in political processes.

Applied politics has always been laden with issues of Governance, welfare, populist policies, vote banks, from voting to protests, from trade to citizenship from patriotism to identity, from peace to war, from philosophy to practice.

Political Science is by far one such subject that defies theory to practice. One may like or hate politics but no one can ignore it.

IMPORTANCE OF VOTING

1. Voting is a fundamental rights of every citizen that enables them to choose the leaders of tomorrow.
2. In almost all the countries of the world, the minimum age of voting is 18 years.
3. Each and every single vote matters for a great future ahead but many people think that one vote will not make a change, but as a matter of fact, it does.
4. "If you don't vote, you lose the right to complaint".
5. The ignorance of one voter in a democracy impairs the security of all.
6. Bad Politicians Are Elected by Good people who Don't Vote.
7. "The ballot is stronger than the bullet."
8. Vote for a future that works for everyone.

9. Your Vote Your Voice.

10. "Your State's destiny is in your fingertip?"

On 25th January, we the students of Sarojini Naidu Vanitha Maha Vidyalaya attended National Voters Day awareness program at Ravindra Bharathi. The Governor of Telangana state, Tamilisai Soundarajan, said that "In order to effectively deal with the problem of voting, the Election Commission as decided to take up a measure to identify all eligible voters who are attaining 18 years as of January 1st every year in all the Polling stations across the country." New Voters were given badge with its logo "Proud to be a Voter - Ready to vote". She also said that, the greatest joy is seen in Young Voters of India. After attending this program the knowledge about voting and the awareness for the importance for voting as been increased among the students and many students gave speeches about the importance of voting and there also said some slogans. Post-Election Survey Report of Munugode Constituency

Department of Political Science has conducted a post-election survey at Munugode Constituency on 19th November, 2022. All the staff members from the Department of Political Science along with 70 students from B.A I,II& III have participated in this survey. We have chosen Choutuppall town for the survey as it is near to Hyderabad.

Students have collected the primary data by visiting each house of the town. Each student interviewed about 4-5 voters based on a thoroughly prepared questionnaire. A total of 400 voters were interviewed. The questionnaire contained several questions which enabled us to understand the voter's political awareness and their general knowledge. The surveyors (students) reported that most of the women, to whom they have contacted, were literate, but with no political knowledge. Some of them even asked the money to answer the questionnaire. All the four hundred samples were later categorized into different groups based on the age, gender and literacy. The data based on the survey stated that 65% voters were youngsters (less than 35 years) and 34% voters were middle aged and elders. According to the collected data 52% were male and 44% were female voters. Out of them 60% were literates.

According to survey result 58% of voted for TRS, 40% voted for BJP and 2% voted others. 66% of voters said that this by-elections is going reflect the mood of the voters for the forthcoming State Elections of Telangana and also the following General Elections.

By observing the views of the voters 80% of the population have said that distribution of the money and liquor by TRS was the main reason behind the victory of TRS, 5% of the population said it is the manifesto of the party which led to the victory and 2% of the population have given the vote to TRS by seeing the candidate.

70% of the voters believed that TRS has taken the support of Communist Party, only because of fear of defeat and 25% have given other reasons behind the support of Communist Party to TRS. Almost, 10 MLAs from TRS party have participated in the campaigning in Munugode Constituency only because of the fear of the defeat in the by-elections. The major reason behind the defeat of BJP in the by-elections was less money distribution among the voters compared to TRS. This has affected the mind-set of the local people. Another important finding in that is most of the voters are happy with the welfare schemes including monthly pensions, Dalit bandu and farmers are impressed by 24 hours free electricity.

Most of the voters have accepted the money because it is important for livelihood and they know that after election, no party or representative will turn back for their town development.

65% of voters have said that Komat Reddy Rajgopal Reddy has chance to win the forthcoming election because of the fame among the youth in the Constituency.

Congress lost its deposit because of lack of campaigning in Munugode Constituency. Also, 50% of voters believed that presence of Congress led to the division of votes and loss of BJP.

After the victory of TRS, voters are expecting much more development in Choutuppall. For example, development of roads, irrigation facilities, construction of more schools and colleges, more employment opportunities should be provided in Choutuppall town.

Final analysis draws us to the conclusion that people at the Choutuppall are influenced by policies of the ruling party. However, distribution of money and liquor played a major role in the electoral behavior.
